

IMMOBILSARDA SRL PLANNED A PRESS TOUR IN COSTA SMERALDA

From April 29 to May 1 **ImmobilSarda** was pleased to invite in **Costa Smeralda** a select group of journalists for a visit, that was intended not only to appreciate the wide range of prestigious properties, but also to present the company's philosophy closely linked to lifestyle and the territory of the Costa Smeralda. The journalists involved in the trip belong to some of the

most important national and international publications dealing with finance, travel, home and lifestyle. Among which we can remember Sole 24 ore, Vogue, La Stampa and magazines worldwide like Die Presse and Geotraveller.

The Agenda of the three days was very intense and exciting and involved visits to all major property **ImmobilSarda srl** in Costa Smeralda. The properties, very different for characteristics and location, represent the range of choice of ImmobilSarda able to meet various needs of all types of customers.

The properties visited during the three days are all situated in exclusive locations and designed by **innovative architects famous at international level**. The first day was devoted to the **Villas of Pevero Park**, signed **Jean Claude Lesuisse** and immersed in the splendid setting of the **Pevero Park** and at the exclusive complex **Ianua Maris** inserted in the lush Mediterranean maquis between Cala di Volpe and the famous beaches of Liscia Ruia.

The second day is spent immersed in the rather lovely **Residential Park of Portobello** in Gallura. **Residential Park of Portobello** in Gallura covers an area of about 100 hectares of Mediterranean maquis. In this fascinating and unspoilt environment stand exclusive villas overlooking the sea and perfectly integrated in the

nature and the colors of the place.

The third day was devoted to visiting the **Villas of Pevero Golf**, including the splendid “**Villa I Due Mari**” and the “**Su Cuccumiao**” property. La “**Villa I Due Mari**” is an amazing home in the magnificent environment of **Pevero Golf** with an exceptional view, ranging from the Cala di Volpe until the Pevero bay. The villa is a true masterpiece of **Savin Couelle**, one of the greatest architects / contemporary artists that can create, with its architecture, a poem that can arouse emotions and feelings indescribable.

The estate of “**Su Cuccumiao**”, unique in its genre, deep within the inland parts of the Costa Smeralda. Designed in 2003 by its present owners, this estate, nestled in the quiet countryside, is an alternative to the jet set of the Costa Smeralda, while remaining very close to Porto Cervo and Olbia airport.

During his stay in **Costa Smeralda**, the group could also appreciate the participation in activities organized and offered by **ImmobilSarda** and enjoy specialties of the most renowned restaurants and house farms in the area. In particular: a visit to the exclusive five star **Hotel Cala di Volpe**, one of the symbols of the Costa Smeralda; the terraces of the **Pevero Golf Club** and the wonderful views of Cala di Volpe and the Pevero Bay that were the backdrop to a delicious light lunch; the dinner at “**Agriturismo Lu Pilastru**” and tasting of typical products and wines of the “**Cantine Capichera**”.

The three-day trip was also an opportunity to discuss the current situation of the Italian real estate market and in particular the situation of the Costa Smeralda. **ImmobilSarda**

also was proud to present the new residential project nearing completion that involves the construction of high quality single-family villas surrounded by renowned golf course of **Is Arenas**, in the municipality of Narbolia, in the province of Oristano, known among golfers as one of the best in Italy.

Great satisfaction and interest has been expressed by journalists, who appreciated the beautiful property is submitted and also the proposed activities during the trip.

Particularly interesting was the chance to get in touch with what is a **real philosophy of life**. A concept that emphasizes the value of the **environment** and the **territory** with which the houses come together to create a very unique value.

An idea of tourism which focuses on the less crowded places and seasons, focusing on exclusive estates located in unique places, where you can still enjoy the **quality of life**.
